About Me

I am proficient in English and learning Hindi communication, allowing me to interact effectively with diverse patients and healthcare teams. I have foundational knowledge in frontend development (HTML, CSS, JavaScript), enabling me to create simple, user-friendly web interfaces and understand digital systems. Additionally, I possess strong patient care and clinical skills, including basic monitoring, assisting in procedures, and maintaining hygiene and safety standards. I am adaptable, detail-oriented, and able to work efficiently in both healthcare and technical environments.

Nursing Student

Experience

- Frontend Development Project
Self-Project / College Project
- Developed basic web pages using HTML, CSS, and JavaScript
 - Designed simple, user-friendly interfaces
 - Improved problem-solving and technical skills

Clinical Experience: Assisted in patient care, vital monitoring, and infection control during hospital postings. Supported medical staff and communicated effectively with patients.
